DISAPPOINTMENT AT MORGAN'S DELAY

He is Not Settling Problems Off-Hand as Was Expected.

SELLING MOVEMENT URGENT

Colorado Fuel Weak-It Falls Eight Points as a Result of the Failure of John W. Gates to Obtain Control of Property.

NEW YORK, Aug. 21.—Active speculative liquidation became manifest in today's stock market, and at the close the selling movement was urgent and somewhat precipitated. During the earlier part of the day some stand was made against the tendency to depression, and a few stocks were pushed up at different times as a sustaining influence upon the market, but the selling to realize elsewhere in the market was steadily going on all the time. At the last the liquidation seemed to have proceeded to such an extent that the efforts to support the market were withdrawn, and all semblance of resistance to the weakness discipled.

blance of resistance to the weakness disappeared.

The stocks, which were notably strong yesterday and for some time previously, Col. and St. L. 1105, Stated out at declines this morning, and showed the largest effect of the selling pressure at the last. Some small gains were retained even at the last in a few of the stocks which had risen earner, but in others the gains were more than wheel out. The upward movement in the Denver and Rio Grande stocks, which developed during the day after a period of quiet, was the most conspicuous, but Denver and Rio Grande closed with a substantial net loss. Louisville and Nash-ville was notably weak and fell back, at type on time 3 points. The advance in Western Union was said to be due to pressure upon the shorts, the demand for the stock in the loan crowd being such as to command a premium. With the exception of Texas and Pacific and Ontario and Western, the other demonstrations of strength were in minor railroad and industrial stocks. The acute weakness of Colorado S. A. L. 1574. in the downward course of prices during as day, and the closing tone was distinct—weak. There was no actual new description to sell stocks, but there was a rry material change in sentiment, which used an altered view of the same contions as existed yesterday. The sentiental character of yesterday's rise, and last which has preceded it for several tys, left a great probability of a reaction.

COFFEE MARKET.

NEW YORK, Aug. 21.—The cotton market opened barely steady with prices 163 points lower in keeping with weakness in the Liverpool market, where prices had dropped some 2622 points. There were foreign seiling orders here, and the more prudent local Jongs sold out for a turn, believing the recent advance too great on the bullish factors at work, and that a large scattering long interest had accumulated. The Wall Street bull element came to the rescue soon after the call and bid prices upward rapidly, January reaching 7.92, while August managed in some way to reach 8.56. But at these figures the realizing movement by scattering longs again set in on a liberal scale; prices were unable to withstand the strain and worked point by point lower. Reports of showers over the central and eastern belt with a forecast for showery weather generally to-night or to-morrow, thus indicating a break in the hot wave west of of the Mississippi River, helped to undermine bull confidence. Trading was spasmodically active throughout the session, and in the last hour was general with liquidation over-topping all other operations. Fear of August notices tomorrow led longs to disgorge holdings in that delivery with the result that the price broke 12 points from top to 8.44. Later months were weak in sympathy. The close was easy and net 667 points lower. Total sales were estimated at 199,000 bales. COFFEE MARKET.

Consolidated—Net receipts, 19.714 bales; export to Great Britain, 2,753 bales; to the Continent, 14,225 bales.

Total since September 1st—Net receipts, 7,590,306 bales; export to Great Britain, 2,01,574 bales; export to France, 741,661 bales; to the Continent, 2,899,918 bales.

COFFEE MARKET

NEW YORK. Aug. ZI.—COFFEE—The market for coffee futures opened firm in tone with prices 10@20 points higher. As for the past two days, the dominating influence was the bullish "frost" news from the crop country. The whole list eased off under heavy profit-taking, led by bull leaders. The market at the close ruled steady and net unchanged on February but 5@10 points lower on other options. Trade was very active, amounting to 117,000 bags.

CHICAGO MARKET. a wild one in grains. The return of

manipulation, which began to make itself felt a week ago, made all the pits a storm center. Corn shorts suffered worst, September gaing almost 5c, at one time. September options in every pit felt the effect of scarcity of contract grades. Wheat got a whirl, shorts in oats saw no hope of contract stocks, and the big packers put their shoulders under provisions. As usual the fortunate longs unloaded some of their holdings for profits, and there were slight recessions from top prices late in the day. At the close, however, everything was strong. September corn a closed 4½c, higher; September wheat 4c, up, and September oats 16114c, higher. September provisions closed 224670c, higher.

The leading futures ranged as follows:

Open. High. Low. Clos.

WHEAT—No. 2
